

Mission of Hope, Haiti

LEVEQUE COMMUNITY

MISSION

To strategically partner with Mission of Hope (MOH) by investing in housing to complete the resettling of the tent families of Leveque and deaf families from La Piste. God's hand has been reigning over this community. The Leveque Community has emerged as one of the most impressive and outstanding resettlement communities in all of Haiti, with over 150 deaf and hard-of-hearing families integrated with the hearing community.

PROBLEM

Approximately 200 families are still displaced and living in tents without a permanent home in Leveque. These families have been living in tents for several years, and we desire to see these families, their lifestyle, and their homes restored to completion.

SOLUTION

In the wake of the earthquake, MOH partnered with the Haiti Relief Commission and was awarded over 100 acres of land for the Leveque Community. Over the last three years, this project has been acclaimed as one of the finest examples of what community development can and should look like. We praise God for His favor in allowing MOH to help build such an incredible and flourishing community for the deaf, hard-of-hearing, and displaced families. To date, over 440 families have resettled to Leveque, where safe drinking water, agricultural training, a church, and a school have been provided to offer these residences the greatest opportunity to see, hear, and feel the Gospel.

TOTAL COST ESTIMATE

With each home costing \$6,000 to construct, MOH is seeking an investment of \$1,121,849 to provide every family a home, and to complete the Leveque Community Housing Construction.
